

# Conquest Imaging We Create Ultrasound Experts Training

Quality training is the foundation for any organization performing their own ultrasound repairs and maintenance. Conquest Imaging's Training 360° is the most advanced, comprehensive ultrasound training program available and gives you the tools and knowledge to repair and maintain equipment for peak performance and uptime.

## Budget Friendly

Travel budget limited or non-existent? Our 'Total Training Package' allows us to create a custom training program which bundles airfare, hotel and tuition into a single product.

## NEW! Lease-A-Seat Program

Now your organization can lease a training seat for all Conquest Imaging training classes for one low price. With this program, you may send one student to each class we deliver for a full year and save over 60% in the process.

## Personalized Training Available

Customized training packages created to exceed your needs and delivered at our state-of-the-art technology center in central California or at a location of your choice with our exclusive 'On-the-Spot Training Program'.

**"Through Conquest Imaging, we have improved uptime and reduced overall support costs." – D. Duet**

**"Troubleshooting, repairing, disassembly all outstanding! The instructor was excellent" – J. Diaz-Otey**

**"Great class...True atmosphere of being in the field" – P. Duke**

**"Training could not have been better... Already paid for itself" – C. Steckman**

## Recertification Credits

Conquest Imaging's ultrasound courses earn certified BMET's/ CBET's 0.5 points per day under Category I-Courses through the Association for the Advancement of Medical Instrumentation (AAMI). These points are applied towards the required 15 points minimum over a three year period.

## Stay Connected

For every paid student\*, Conquest Imaging provides a digital tablet with the training manual installed along with Instant Messenger™ for parts orders, and Skype™ for follow up Technical Support.

\*Digital tablets are available to scholarship students at a nominal fee to cover the cost of the hardware.

Because Quality Matters.
